

Status of Macintosh Testing as of 2/10/03

MAC testing using OS 9.2 and 10 has been conducted for GELCO Travel on Netscape and IE natively as well as using Citrix. Though not officially supported by GELCO, results so far have revealed no issues with the following configurations:

- OS 9.2 and 10 with Netscape Communicator 4.77 via Citrix Client 6.3
 - *OS 9.2 and 10 does NOT work natively with Netscape*
- OS 9.2 with IE 5.1.x
- OS 10 with IE 5.2.2
- OS 9.2 and 10 with IE 6 via Citrix Client 6.3

Note: ** Additional testing needs to be done for Oracle Applications.
